GREAT DEMAND THIS SPRING FOR TENEMENTS,

especially in south and easterly sections of the city, also nearly all houses built for homes the past year were built in this section of the city. I have lots on many desirable streets and mostly in eastern section of city, on Hill St., Ayer St., Kirk St., Quarry, Circle, Camp, Tremont, East, Currier, Grandview, Long St., any of which I will sell at as favorable prices, or more favorable than equally as desirable lots can be had elsewhere. If you were to buy a cow you would usually see a party who had many for sale, rather than buy a man's only cow. Take a walk during the next day or two, visiting above streets. Notice they are our best streets and lots well elevated. No fear of surface water or floods.

The old Cutler Corner School association will hold its annual picnic, June 23, at Dewey park, to which every member and his family is invited. Anyone who ever lived or taught school or went to school in Cutler corner is asked to come, and if they feel interested and would like to join the association, we would be pleased to add their names to our list. There will be tables and chairs in the pavilion to accommodate all, but if anyone prefers to eat under the leafy boughs, he can do so. Remember the date, Saturday, June 23, and let us all make an effort to be present, for, as our little band grows weaker by some older ones remaining at home, as they feel the task too great for them to undertake, and others are passing on to a higher life, which weakens our chain, the younger ones must link together and make our chain strong, for, as the years go on and the older ones drop out, they are expected to take their places. So let us push on and make this picnic the most enjoyable one ever.

BOUGHT BY A NEW YORKER.

"Marshland," the Summer Home of Late John L. Bacon.

White River Junction, June 8.—Marshland has been sold by the heirs of the John L. Bacon estate to Malcolm W. Niven, a New York lawyer for a consideration of \$16,000. This estate is situated in Quechees village in Hartford and contains 485 acres more or less. It was purchased by Mr. Bacon some years before his death and used by him as a summer home and during the last few years of his life he spent thousands of dollars in the development. Originally it was the home of one of the first lieutenant-governors of the state, Lieut. Gov. Marsh and in selecting the name "Marshland," Mr. Bacon sought to perpetuate the name of its founder.

Other similar devices have been patented, but both are complicated and cumbersome in comparison with Mr. Connarn's invention.
